

**DE1484**

**REMARKS**

The specification has been corrected in order to correct misprinted typographical errors in the symbols for special characters in some of the formulas which apparently occurred during printing. The examiner will note that the corrections represent obvious typographical errors and are made to conform the misprinted symbols with the rest of the patent application.

It is respectfully requested that the application should now proceed to prosecution.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Eugene Lieberstein', written over a horizontal line.
